Description

NEW GRADS THROUGH TO EXPERIENCED LEADERS!

- Above award salaries + super
- Sign on bonus!
- Structured & gradual onboarding program
- New grad 'kickstart' program
- See below for a full list of offerings for our team

Seeking talented therapists committed to sharing knowledge, improving their professional skills and changing the lives of the little people we work with.

We rarely talk of KPIs and talk regularly of how we can improve the service for our clients and work environment for our team. Come join a team who genuinely care for each other.

Sensational Kids has been running for 13 years offering tailor-made, individual and group therapy to our community. It is a company based on strong values of integrity, learning, fun, professionalism and innovation. We have a 9/10 Employee Happiness score from our team!

We see kids aged 0-18 and provide child and family-centred therapy incorporating a range of therapeutic models including DIR Floortime well as other models for best practice.

Our team is growing and we have the following positions available:

ORMOND: Part to Full Time. All days available. New grads welcome to apply. 2 x positions available.

KENSINGTON: Part to Full time (0.8 - 1.0). New grads welcome to apply. 2 x positions available.

- Early career clinicians including new grads welcome to apply
- Weekdays and Saturdays available (days flexible)
- New grads: Reduced caseload and loads of time for learning.
- More experienced clinicians will start with or work towards a leadership position within the team including supervision of more junior team members if you are keen on this.
- Caseload will be a mix of face to face and telehealth with the majority of sessions in our purpose-built clinic rooms. You will have your own room and computer/ laptop on site.

Who we are looking for:

We are very careful with who we select to be part of our team, as our team is pretty special. We are looking for fun, energetic, positive team members who don't mind a challenge, thrive on an interesting and varied caseload and who are happy to support and be supported by our team.

We are looking for a therapist who is flexible, mature and knows how to ask for help when they need it. We are also importantly seeking someone who is happy working with a largely NDIS caseload and who is keen to further develop their clinical, professional and supervisory skills. We are a large team so there is plenty of opportunity to progress in your career with us.

Experience working with a paediatric caseload is important (student placements also considered) working with a wide range of presentations.

If you join, you will be part of a brilliant team of Speech Pathologists, OTs, Psychologists, Dietitians, Counsellors and Music Therapists.

Your role would include:

- Assessment of children for various conditions utilising standard formal and informal measures
- Individual and group therapy work including parent support and training
- Medicare reporting, NDIS reporting and liaison with GPs and other professionals such as teachers.

If this sounds like the ideal career pathway for you we'd love to hear from you.

Sensational Kids provides for you:

- Onsite experienced supervisors and booked supervision with your own dedicated supervisor
- Unlimited access to our Clinical Team Leaders who help support, guide and skill you up.
- Equivalent 1 full day (7.5 hours FTE) of admin time built into calendars - much more for new grads.
